is true they cannot con much, out they can show their good will. At all events, they can help to make clear the nature and amma of the rebellion, in its foreign, as well as domestic, applications and bearings. They can at least help to teach the world that dispotant interests new in process of decision.

Thus far for one side. On the other, we have also several parties. First, we have

tant interests now in process of decision.

Thus far for one side. On the other, we have also several parties. Pirst, we have those represented at Baltimoře, who put the candidate in nomination, and will sustain him by their votes, Republicans, War Democrata, Racicale, Abolitionists, and whatever other names they may choose to rally under. Then we have in the second place a navaparty, headed by old Farragut, thrusting his Roman nose into Mobile Bay just as McClellan lwas getting a good start in the political race, and upsetting the deciaration that the war was a failure. Thirdly, we have Sherman with a lot of bine fellows, captivating a place which "could never be captured," just as the cry was to be opend for "a suspension of hostitilites." Now, sgain, we have Sheridan holding off prevokingly in the valley, and playing with Early as a catwith a monse, till ready to eat him;—and feeling the appetite come on just as the public interest in Mobile and Atlants was beginning to flag, and so cleaching the argument about millitary fallure. And latily, we have Grant putting in on the same sjde as the very moment when every body was looking for him to do it. How he will come out definitely, we do not know yet; but his me vements look as if his logic was of the right kind.

Thus we have Chicago, the rebels, and the British pitted against Baltimore, Farragut, Sherman, and Grant—with the young men in him codes along with them. The contest gets more interesting every day.

TORM MANK RIOT.

Decidedly the local sensation of Saturday was the failure of the Western Marine and

ecidedly the local sensation of Saturday the failure of the Western Marine and Insurance Institution. Apart from the was the failure of the Western Marine and Fire Insurance Institution. Apart from the financial excitement naturally consequent upon the closing of its doors, more serious results were for a time apprehended, and wase only prevented by the timely appearance of the Provest Guard. It seems that ch the evening previous, the Twelith Ward Committee had deposited their draft fund in the bank. The fact that the draft for this ward securred on Saturday rendered the use of the fund a prompt necessity, but of curse when the committee applied for it, it was not forthcoming. The news soon apread abroad and in infuriated crowd of citizens of that ward gathered about the building, determined upon the most desperate measures to obtain the money. A gentleman connected with the bank was maltrested, and threats of hanging him were made. The rapidly increasing crowd, arged on by impradentleaders and speakers were organizing to force an extrance into the hank. The police were not at hand. The Mayor was appealed to.

ge iscé much more to the world, science, and of civilizatios.

de.

Otho AND Virginia.—The central State of Otho has produced an extraordinary number of the great military leaders of this war. In Lientennt General Grant, commanding at 1861. Only Levisianure chosen. Siep. maj. 1861. Only Levisianure chosen. Siep. 1 Sheridan, the darking campaigner and solca. Sheridan, the darking campaigner and solca. tific soldier of the henandoah Valley, is a native of Ohio. The gallant and hamented Major General McPhurson was also, we believe, a native of Ohio. Besides these, our most verominest Generals at present

for General McPhurson was also, we believe, a native of Ohio. Besides these, cur most prominent Generals at present, Gen. Ropecrans is anative of Ohio, and so is Gen. Gilmore; and the list of eminent military officers from that State might be greatly extended. There is evidently varge brain and good blood in the Buckeys State.

About as large proportion of the rebel mil. itary leaders are natives of the State of Virginia, which borders on Ohio for a wat distance. We lately got from Richmond a book, entitled "The War and its Heroes," and by this it appeared that from Gen. Lee down to Mosby, about four-diths of the most hoted Contederate army chiefs were natives of the Old Dominion.

CUTTING BOTH WAYS.—Now that the French in Lower Canada have expressed their determination, through the press and at large public meetings, to resist the plan of the confederation, and demand their independence and a nationality of their own, the Montreal Guestic, which has been the great ally of the Southern rebels, changes its tone. It says: "Naught but mischlef can come of setting race against race and neighbor against neighbor over here in the North, We think, from appearances, that these rabid Canadian editors will themselves have a taste of civil war are long, and if so, "the polson, ed challee will be commended to their own lips."

For Mr. John G. Nicolay, the President's Private Secretary, who was recently drafted

Mr. John G. Nicolay, the President's For Mr. John G. Nicolay, the President's Private Secretary, who was reconstly drafted in Washington, though erroncously enrolled, being subject to military duty, not in the district, but at his hong in Hillionia, which has more than filled its quota, and being at the came time incapacitated by illness from serving, has sept a substitute to the caroling office, who was duly accepted and mustered is.

Lags County.—There was an animated contest in Lake county for Representative between the friends of H. W. Blodgett and E. M. Haines. The Convention compromised the matter of Satrock he necessaring. Col. the matter on Saturday by nominating Col. E. B. Payne.

Hon, I. N. Arnold addressed the Re-

heads will be redeemed; 1, 2, 4, 6, 7, 5, 6, 16, 13, 14, 15, 16. We do not believe the Copperheads can clost more than three Congressmen from this this salt.

Indians is the areas of a desperate and doubtful contest. She must have more than forty thousand of her legal voters as camp to day, whereof we are confident that less than fave thousand are Copy erheads—and none of them are allowed to vote, save at the polis of their respective homes, where not one tenth of them can be at their State election; but Governor Morton and other Union candidates, especially those for Congress, are making a gallant canvas, and are hapful of good results. Could her soldiers vote we should have no fear as to Indiana, though she went heavily wrong in 1839. Her egyregate vote at her recent elections is as follows:

1860—Oct. Gor. Law. ... 186,726. Hendricks. 184,608

"—Nov. Fres. Livoin. 189,026. All others. 128,110 cers.

1860—Oct. See. Peele. ... 118,517. Albon ... 128, 600 1265. Election for local officers.

The rival candidates for Congress now, and the vote of their respective districts at the last election (1890), are as follows:

Dut. Sepal Un. Vote. Demogras. 1. He will speak in Lockport on Monday evening, Oct. 3.

Pendleton a Seconsionist.

The Copperhead condidate for Vice President is a rank seconsionist, of the Calhoun strips. It elected Vice President he will have the casting vote in the Senate and he may become President as two other Vice Presidents have done since Harrison's time.

So long ago as January 18th 1861, when four states had "secoded," Mr. Pendleton rose in the House to icclare that though the States had agreed to do certain things, there was no power to compel them if they refused. His spech repeated, and even exagerated, the doctrines of John C. Calhoun. He said:

"Now, sir, what force of arms can compel a State to do that which also has agreed to do? What force of arms can compel a State to refrain from doing that which her State government, supported by the sentiment of people, is determined to persist in doing? It is provised in the Constitution that the citizens of every state shall have all the privileges and immunities of citizens of the several States. What force we this federal government can compel the observance of that clause is a State is own clinens?

"Fall faith and credit shall be given in a ch State sown chieses?

"Fall faiths and credit shall be given in a ch State to the public acts and judicial proceedings of every other State. How will the federal government, by armies and arms, on force the observance of that cause in the Corettication if the judiciary and the executive suborties of a State, supported by the laws, reques such faith and credit?

"No States without the consent of Con-

and the vote of their respective districts at the last election (1802), are as follows:
Dark Sepul Un. Vote. Demograk. Vote.
1. Cyrus at Allen. Sale, was K Stblass. 11.35.
1. Win at Chilly. Cit. B. West R. Branches. 11.35.
1. Win at Chill. Cit. B. West R. Branches. 11.35.

MICHIGAN OF MARINES 2. SELLY

MICHIGAN O

COL. CLINGMAN, OF MESSOURI.
Chingman, after he was dislodged from Bond and Montgomery counties, made Jersey and Green his place of rendesyous. The stage road to Jerseyvills passes directly through the forest where his band of desperodoes had their abiding place. Some of the citizens of Green, I am told, visite him in his camp under a flag of truce, and demanded that he should leave the vightilty. To this he consented, provided he was left unmolested for twenty four hours. The stipulated time had not half expired before a band of Union citizens from an adjoining county fell upon him and caused him hastily to evacuate the position. Here it was that Carlin was wounded and captured. Clingman and his crew passed leisurely and in the day time, across the country until he struck the Macoupin bottoms, when he made for the river and crossed over into Missouri. This appears to have been the last of Clingman in this region. He was an ardent "Democrat" of the modern Jeff. Davib breed.

FREPARATIONS FOR OUTBREAK. show.

The rival candidates for Congress, with the vote of their respective districts, in 1882, are as follows:

Union set, Vote 18 19. Democratic. Vote in Vi. 1982, and 1882, Total These districts the contest for Congress in '62 having been independent of politics, we give the vote for Auditor instead.

Ohio was formerly preponderabilly a Whig State, and has been usually Equablican since

PREPARATIONS FOR OUTBREAK,

morrat" of the modern Jell. Davis breed.

FREFARTIONS FOR OUTBRAKE.

There is very little doubt that had it not been too the timely interference of the subtorities, this realon would have now been the thester of organized rebellion. The draft would have been the pretest for rising. In the little village of Providence, on Apple Creek, in the village of Providence, on Apple Creek, in the village of Colan, in Walteside, in Carrolton and in Jeneyville, there are men who before the draft wore mighty eaths after the manner of the sons of Heini, that they would not be drafted, or if draw they wild resist to the bitter ead. Some of these windy chaps were drawn, but instead of "aghting" and resistance they have cooled down and coo as gratly as a sucking dove. When I was in Jacksonville, there were received by rail, several cases of "goods," which upon examination-proved to be guns. Of course they were not delivered to their address.

These guns were doubtless sent to arm the malcontents. I think there will be no outbreak in this region. The draft has been made, and although, I am happy to say, some of the Copperheads were caught, the comb which passed over this community had its teeth set so wide apart that a large number escaped. They have deferred their outbreak until the next draft, and meanwhile are on the lookout for "inggers" for substitutes. I trust our colored friends will serve as ambstitutes for Union men. Let the Copperheads go to the army. It will be an excellent school for them. They will learn the leasons of the rebellion and graduate at the end of a year accomplished shollitionists.

Jerseyville is the shire town of Jersey county. You can't reach it by river, teletica, we give the vote for Auditor lastead.
Ohio was formerly preponderantly a Whig
Siste, and has been usually Republican sizes
the formation of that party in 1864. In 1862,
the went wrong, choosing fourtees. Democrate to five 'Republicane' to Congress, by
an aggregate majority of 6.717. Last year,
abe went heavily against the 'Peace' party,
but more especially against Vallandigham.
their esheldate for Governor-61,000 on the
Home and 39,179. On the absent Soldiers'
vote-total 101,000. It is not likely that so
large a majority will soon again be given by
her for any pasty. Her aggregate vote at the
recent elections has been as follows:

**Republicant of the control of the control of the control of the control
**Republicant of the control of the control of the control
**Republicant of the control
**R

JERSEVILLE.

Jerseyville is the shire town of Jersey county. You can't reach it by thee; telegraph, or rail. I arrived here from Carrolion by stage, and shall leave by the same conveyance. Union men in Jerseyville are not abundant. They are as searce as hen's teeth, but their quality can't be improved. It may perhaps be hoping against hope, but they do nope to darry Jersey county at the enaming election. They have mominated a full county ticket from coroner up, and there is a pretty good chance that they may be able to clock. The change of sentiment here, as elsewhere, in this portion of the State, is remarkable, and will be fully exhibited at the polis in November.

Boldiers' Vote.

ADARS GERMAN HOSPITAL.

Beliters Chicago Tribuse.

I have the honor to submit a report of a vote taken by the soldiers of this Hospital, which resulted as follows:

Set the color of the color of the State.

Set the color of the color of the Hospital which resulted as follows:

Set the color of the color of the Hospital.

Met Salian received.

Set Total number of votes cast.

State of the color of the

ing, and we too would like to show our friends as home that we are for "Uncle Abe,' a first, last and all the time. Although we have not the privilege of easting our votes at the November election for any cardidate. For which fact our Legislature will please accept our everlaiting contempt.

"J. B. Albert.

Hallett Davis & Co.'s extensive piand forte manufactory in Boston was entirely destroyed by fire a few days since. The total loss is \$900,000.

thank flood, if our carrancy is caree, it is sain aid.

For this panic, however, the banks themselves are in a great measure responsible. During the pust six months, in spits of repeated cautionise on the part of the Tamuran, many of them have encouraged speculation of all kinds—in which, wool, wheat, stocks, gold, dec, purchased at critically high prices, till they have locked up a large perion of their means in what cannot be convertible except at great searchice both to themselves and their constoners. Should gold go still lower, as we hope, and many predict, heavy losses will be enstained, and another severe lesson in banking will have been learned.

Or the particulars of the failure of the Western Marine and Fire Insurance Company we are not ruly apprised. If is generally attributed to heavy advances on proders, and the expension will probably entail erest loss and inconvenience to grain and cattle declares. On 'Change and in the Live Stock yands there were many sufferers, and the staffir cast a gioom over the general business ptille.

It is proper to, state that the Directors of the bank are coundered men of integrity, and although we are not informed of the losses austained by it, their friends speak confidently of the ability of the institution to pay its liabilities.—The Directors are: J. H. Woodworth, Fred. Tattle, Geo. W. Ga.c., Geo. C. Cook, and W. H. Waite.

For some time past, however, the seak has no had the influence of the Directors are: J. H. Woodworth, Fred. Tattle, Geo. W. Ga.c., Geo. C. Cook, and W. H. Waite.

For some time past, however, the seak has no had the influence of the former officer, and not to any action on the part of the Directors are: J. H. Woodworth. Fred. Tattle, Geo. W. Ga.c., Geo. G. Cook, and W. H. Waite.

For some time past, however, the seak has no had the influence of the condition of the Price of the condition of the Price of the condition of the Directors are: J. H. Woodworth. Fred. Tattle, Geo. W. Ga.c. Geo. G. Cook, and W. H. Waite.

Sair, bris.

The panie in commercial circles was:

The panie in commercial circles was:

seted during the past two days was greater to-day
than ever. There was a good stituedance on
Change, but business was-unusually quiet, and
orders ruled considerably Jower. The failure of
control was the condition of prices ruled considerably Jower. The failure of another bank, and the reported weak condition of others, seemed to put a stop to all operations. There was no inquiry by shappers, and the greas searchy of currency kept speculations out of the market. At the same time holders generally refused to sell except for greenbacks—there being little or no confidence in bank checks. The demand for preduce was so very limited, that but little effort was made on the part of holders to press sales, and the transactions were light. Therefore little or no inquiry for Flour and prices fell 20gaste per left, with trifling sales or syring extrast \$5.0008.71%.

The Wheat market ruled exceedingly dell and prices declined 20glio-per bushel, with sales of only about 75,000 bushels, at \$1.103.50 for No 2 Spring in store—closing unsettled at about the la-side quotation. There was nothing done in Winter Wheet nor in No 1 Spring. The scarcity of currency checked all speculative demand, and the few shippers in the market found it almost impossible to sail their exchange.

Corn was very dall and we note a depreciation since yesterday of 20gle, per bushel.

Only about 75,000 bushels in all canaged hands, at \$1.205.81.28 for Rejected—the market cleaning dall at inside quotations.

Outs were in very limited inquiry, and the mar-

for No. 1, \$1.293.1.24 for No. 2, and \$1.326.1.25 for Rejected—the market closing dull at inside deola-tions.

Cats were in very limited inquiry, and the market was heavy and 5c lower—only about \$5,000 hushels having changed hands, at \$500.00\text{doors} for No. 1 Cats and Seg.28\text{doors} for Rejected Cots—the market closing masettied at about \$50,260. Ryr fell \$60,100 per hushel, No. 1 sating at \$500.00 pt. 30.00 and No. 2 at \$60,000—closing dull. Only about \$5,000 hushels were soid.

The market for Barley was outliedy nominal. There were no asks reported, and we could hear of no inquiry.

Highwines shared fit the general depreciation, and prices have fallen \$10,00 per gillion, with sales of 700 bris at \$1.000.1.68—closing innestited.

Thirotoly geed was negiceted. Flax Seed was Highwines shares in the general experiences, and prices have alian 10,00 per gillon, with siles of ind trie at \$1.000,1.60-closing unsented. Trincisty \$\tilde{q}\$end was negrected. Flax Seed was quiet, with light cales at \$2.00.

In Greesries the market continues depressed and inactive. Prices for the most part was nonlined, with a deciling tendency. There has been no further change on \$10 and Cape Codes, but on O. G. Java quotations are reduced \$26.00 ft. Sugar in very limited demand, and Molasses Sugar is quested at a deciline of Ical 20 on previous raries. Syrups are veryquice, with a tendency to lower rates. In Tea there is nothing doing, we note a deciline on the choice grades of Japan, material leaf, Ooicogs, and Sonchongs of 160 \$10.000, and the improve the market, and the high cost of freight, labor, &c., price? rule very firm and unchanged. Foreign Dried Fraits are very duit, under the influence of the deciline in gold, and the increased demand for Domestic Fruits, the supply of which is large.

Lake Fish are in fair demand, and packanged, Mackenel are in better supply and less farm, but with no quotable flamps. Codish in fair demand and with better receipts, the market his declined file \$1.00 has on previous quotations. Follows and Hake are in fair demand, with a glood of the \$1.00 has on previous restea.

Hotes are in very limited (demand, with a good market has decilined file and the limited (demand, with a good series are in very limited (demand, with a good series and series we are in very limited (demand, with a good series are in very limited (demand, with a good series are in very limited (demand, with a good series are in very limited (demand, with a good series are in very limited (demand, with a good series are in very limited (demand, with a good series are in very limited (demand, with a good series are in very limited (demand, with a good series are in very limited (demand, with a good series are in very limited (demand, with a good series are in very limited (demand, with a good series a

READ AND REFLECT At Wholesde for Cash, This Saire will permanently remove and cure Corns, Warts, Roles, Ring-worth and Toothache in from three ver Powders. As soon as it was known that McClellan ad been nominated on a peace platform, the As soon as it was known that McClellan had been nominated on a peace platferm, the Copperbacks throughout this State, who have loog lain dormant in their heles, who have loog lain dormant in their heles, suddenly crawled crut and commenced hissing and splitting their venem at their loval heighbors. They declared that their candidate, with a fair election, would carry the state by an overwhelming majority.

They nealously entered upon the work of organization, and dens of the vipers aprang up in every ward in this city, and in every town in the State. Arringements were made for a grand radification for the evening of the 17th inst, in Monument Square, when the trailter orators could spout their treason in the face of Gen. Wallace and his soldiers, and tell them to "make the most of it."

But a few days later "the Young Napole-one" letter of acceptance came upon thou like a thunderboil from Jupitur, and dashed their hopes and calculations to the ground. Hance grief, hence tears, hence malefletions, benne damusclations, and hence no frand ratification meeting is the Monumental City!

But how owns Gen. McClellan to so disappoint his friends. It is well known that the peace plank of the platform and adopted by the Chicago Generation, was submitted to him everoster of signature and spirit. But let was a first fact of the sufference of the sufference has be executed by the army, in very complety took measures to ascertain how his ever of the peace platform apon which he was expected to atland. I state this on authority of an officer of rank in the regular army, (whose name I give you sub read,) and a political friend of McClellan, who made the statement as of his own knowledge. Several cays were of course required to ovaried the statement as of his friends before under them, except a few would-be deservers and bomat-immores. Would wolk for him TO CURB PEVER IN ALL ITS PORMS. MAY BE Hoods amanage bell bards and the control of the con HAD AT ALL DRUG STOXES. He was at length informed by several corps and division commanders that none of the soldiers under them, except a few would-be deserters and bounty-inupers, would vots for him upon the peace platform. Gen. Hanenek, one of the officers with whom he advised, assured him that if he gave conntenance to the peace platform he would jue the friendable, votes, and influence of those officers of the regular army who would other wise support him and glory in his success.

At the same time the platform went to the people. None but Copperhands received it with favor. Of the War Denocrats thrusten upon thousands denounced it, while the rest declared that they would rupport the eardidate upon it only because the proceedings of the Convention had been regular, and, as party men, they feel bound to abide by them.

The Seymeurs, the Woods and Vallandighams quickly perceived that their platform would not suit the people, and that to run their candidate upon it would be to get shamefully distanced in the race. McClellan as we this equally well. He had learned by reading the papers how his nomination on the traiting highest had been as which a contract the reading the papers how his nomination on the traiting relations had been readed. re of a Bank Angry Best Director Beaten Stabb

come porors are restored to strend.

A large meeting was been on Saturday evening in the 19th Ward—7. 6. Fitch in the chair. S. L. Callin was appointed Secretary.

A communication was received from the Thirden over their quast that they would have credited to the Eleventh Ward on payment of \$2,040 and cashes the county acrib. the Bierenth Ward on payment of \$1,000 and cashthe Bierenth Ward on payment of \$1,000 and cashThe meeting passed a vote of thanks to the Thirteenth Ward for their liberal offer, and stated that
they would not take any men until they got enough
to fill the ward's quots.

The committees appointed to wait upon the
nominees for Jongress and request them to subscribe to the county loss requested more time and
the following was then adopted:

Resolved, That the legal voters of this Ward will
support any man that is nominated by the peopwithout regard to party, if the candidates nor
nominated will not come herward and assist us in
this our hour of med by subscribing to the county
loss. without regarts to party, it the candidates nor nominated will not come forward and assist us in this our hour of need by subscribing to the county long.

I have a subscribing to the county long and the subscribing to the county long and the subscribing to the county long and the subscribing to the dark. The county long and the subscribing to the subscr ponce. The tre of a few was excited by the rather imbusiness-like exit of Mt. Tuttle, and we all know the ease with which the passions of a naoh may be axcited.

A rather singular case of salvation from beak-ruptcy through the closing of this bank, came to light yesterday. A wall known citizen had an account rath the W. M. & F. I. Co., but cheeled it all out except a banance of a few conts. The so-account rate on, as there increasing no refinition's account rate on, as there increasing no refinition's more requesting him to satisf his account fe he did not wish to deposi, as they were timed transferring the balance. He did so, drawing a check for four-few energy, which was promptly pald, minus the two cents for stamp. He said yesterday that if he had not clessed his account in time, that four-tem cents would have ruised him.

We have came to congrutation ourselves on the satisfactory termination of this trouble. The bank was not liquired, and the Ward has got its money. In any other city the affair would probabile because the congruint of the large of the said about the spood sasturedly as any other people on the face of the earth.
